## EDUCATION

### University of Central Florida

*Bachelor of Science in Computer Science*

Orlando, FL

May 2025 – August 2027

### Miami Dade College

*Associate's in Computer Science*

Miami, FL

January 2024 – December 2024

## EXPERIENCE

### Founder

*Nebula Insurance Agency*

May 2024 – Present

*Miami, FL*

- Created an insurance brokerage agency & platform with 3 licensed insurance agents with over 100+ clients.
- Licensed in to operate in FL, TX, CA, OH, MI
- Contracted with most carriers to sell Medicare, Life, Dental/Vision, and Health insurance.

### Account Executive

*GetMeHealthCare*

Feb. 2024 – May. 2024

*Miami, FL*

- Closed on 40-60 policies on health insurance sales per week and exceeded target quotas.
- Added upsells at 20%-25% of policies for Dental, Vision, & Life Insurance
- Trained on compliance practices for health & medicare insurance sales.

### Night Auditor

*Hampton Inn Dadeland*

April 2022 – August 2022

*Miami, FL*

- Handled guest check-ins, walk-ins, and reservations, monitored security cameras and restocked snack area. Assisted with guests with room issues such as TV, Wi-fi, noise complaints, & other incidents.

## PROJECTS

### Insurance Agency CRM | *Svelte-kit, Prisma, Postgres, Clerk, Hono, Stripe, AWS S3*

May 2024 – Present

- Developed a full-stack CRM for my current team of insurance agents.
- Easy import access from HealthSherpa CSV to track all the commissions of your clients.
- Allows agents to track which companies they are contracted with and which states they are licensed in.
- Add notes, files using AWS S3, and update client information and create/export clients.
- Allows you to send required consent forms using a hosted instance of DocuSeal on Railway.
- Tracks free tier usage and allows users to sign up for a Pro plan using Stripe.

### Insurance Agency Website | *Svelte-kit, Sanity*

May 2024 – Present

- Developed a front-end website that uses server side rendering for search engine optimization.
- Created a free course on the affordable care act (ACA) that helps new agents learn how the ACA works using Sanity.
- Created a blog on the new changes regarding the ACA/frequently asked questions using sanity for search engine optimization.

### Insurance Agency Call API | *Twilio, Hono*

May 2024 – Present

- Developed a call routing solution using Twilio that saved us over \$50+ per month.
- Routes calls to multiple agents reducing our missed calls % by 50%

### FineTuneHelper | *Svelte-kit, Dexie.js*

November 2023

- Developed a client-side web application using with Svelte that allows you to create custom fine tune data. Implemented dexie.js to store all your datasets locally in your browser using indexedDB.
- Allows different AI formats such as Llama/GPT plus import, export, & validate datasets in their correct formats or convert one to the other.
